Re: Annual Meeting Success

By many accounts our annual meeting was a success, and we are so grateful to all the students who so fully participated. Your time with the SAP, your graduate project presentations, your research posters, your Global Café table hosting, your Toolbox facilitation—you were everywhere! Thank you for taking time out away from class and your homes. You so enriched our meeting. Thanks for ALL you contribute to the REACCH project!

Congratulations to our student poster winners, Sarah Waldo, Ryan Boylan, and Jinshu Chi.

Jodi Johnson-Maynard

REACCH Education, Objective 6 Lead PI
jmaynard@uidaho.edu 208 885-9245

New Staff to help you...Leigh Bernacchi of former pre-post doc status is REACCH's new Education and Communication Coordinator. Please share your ideas!

ACTION STEPS

- **How to meet your Nitrogen Cycling Course requirement**

It benefits our interdisciplinary project for all students have a level of understanding on the Nitrogen Cycle. Three webinar series will stand in place of a course: <http://csanr.wsu.edu/webinars/pnw-ag-and-climate-change/>

Part One: Extension Specialist Kristy Borelli covered N- cycle in production.

Part Two: Nitrous Oxide Emissions in Inland Pacific Northwest Cropping System, Georgine Yorgey, Associate in Research, Center for Sustaining Agriculture and Natural Resources. In order to participate in the Q&A, you can join live 10-11am, March 27, or watch the video after. Part

- Please upload your **Annual Meeting posters** to [REACCH site](#).

- **Spread the word!** REACCH's REU program has been extremely successful in the past, but that depends on the recruitment of excellent undergraduate students. Please share this link and lingo with your classes, students, and on online forums, job postings, and listservs:

REACCH Summer Internship Applications Now Open! Internships will go from **9 June – 8 August** for the University of Idaho and Washington State University and **16 June – August 15** for Oregon State University. Summer interns will participate in faculty and/or graduate student research, weekly seminars, and field trips. Interns will receive a salary of \$500 per week for the summer internship and a travel budget up to \$500. Summer interns will also be provided with University housing, identification cards, access to library, email and internet privileges.

<https://www.reacchpna.org/mission/education/undergraduate/summer-research-internship-application/>

- **REACCH Summer Teacher Workshop** dates have been set! Pendleton, OR, July 14-17. We're focusing on GIS so if you have ideas of how to bring technology to the K-12 classroom, please let us know.

Everyone looked fabulous, even at 7am: Graduate Students and the Scientific Advisory Panel, Richland, WA, March 6, 2014.
